RE: Hood Canal Drive NE Road Project

Dear Mr. Stiles,

Thank you for your collaboration in granting Kitsap County property rights for the culvert area along Hood Canal Drive NE Project. As we have discussed and in accordance with this project, the open space area in the plat of Shore Woods has been selected for wetland mitigation. This area will be enhanced during the Hood Canal Drive Project and then monitored for a period of five (5) years following completion of the project. Mr. Dick Dadisman has provided the Wetland Mitigation Plan (enclosed) and highlighted areas of interest for your awareness.

We are respectfully requesting the Shore Woods Homeowners Association approve and sign a Temporary Construction Easement (attached). Our administrative offer to acquire these temporary rights is \$200.00. I understand the Homeowners Association wishes to wait until Mr. Dadisman's presentation in March to finalize negotiations regarding the Temporary Construction Easement but wanted to provide you with the opportunity beforehand to review the plan and documentation. I can be reached at (360) 337-4688 or email mfoster@co.kitsap.wa.us if you have any questions or concerns at this time.

Sincerely,

Molly Foster
Right of Way Division
